The coronavirus epidemic has spurred many scams. If you receive an email, which looks legitimate such as a bank that you use, you should verify the url before sending any information.

Our village website lists many of the most common scams.

On November 7th we responded to 977 Saw Mill River Rd. SFT Jewelry on a reported robbery in progress. Thanks to the real time, reporting from the public our officers were able to catch up and apprehend the perpetrator without incident.

CORONAVIRUS 2019:

The Coronavirus is still infecting people and the village has seen a steady uptick in cases so please wear your masks and follow the CDC recommendations listed below.

Prevention:

The best way to prevent illness is to avoid being exposed to this virus. However, as a reminder, CDC always recommends everyday preventative actions to help the spread of respiratory disease including:

- Avoid close contact with people who are sick.
- Avoid touching your eyes, nose & mouth.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.
- Follow CDC's recommendations for using a facemask.
 - CDC does not recommend that people who are well wear a facemask to protect themselves from respiratory diseases, including COVID-19.
 - Facemasks should be used by people who show symptoms of COVID-19 to help prevent the spread of the disease to others. The use of facemasks is also crucial for health works and people who are taking care of someone in close settings (at home or in a health care facility).
- Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing or sneezing.

If soap and water are not readily available, use an alcohol based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty.

For information about handwashing, see CDC's Handwashing website:

<https://www.cdc.gov/handwashing/index.html>

For information specific to healthcare, see CDC's Hand Hygiene in Healthcare Settings:

<https://www.cdc.gov/handhygiene/index.html>

These are everyday habits that can help prevent the spread of several viruses. CDC does have specific guidance for travelers.

How to Protect Yourself & Others

- Older adults and people who have severe underlying medical conditions like heart or lung disease or diabetes seem to be at high risk for developing serious complications from COVID-19 illness.
- Know how it spreads

- Between people who are in close contact with one another (within about 6 feet).
- Through respiratory droplets produced when an infected person coughs, sneezes, or talks.
- These droplets can land in the mouths or noses of people who are nearby or possibly be inhaled into the lungs.
- Some recent studies have suggested that COVID-19 may be spread by people who are not showing symptoms.
