Coronavirus 2019

Ardsley Village Covid-19 cases

The Coronavirus is still infecting people and the village has seen a steady uptick in cases so please wear your masks and follow the CDC recommendations listed below.

. Prevention

There is currently no vaccine to prevent coronavirus disease 2019 (COVID-19). The best way to prevent illness is to avoid being exposed to this virus. However, as a reminder, CDC always recommends everyday preventive actions to help prevent the spread of respiratory diseases, including:

- Avoid close contact with people.
- Avoid touching your eyes, nose, and mouth.
- Stay home when possible and limit travel.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.
- Follow CDC's recommendations for using a facemask.

In light of new data about how COVID-19 spreads, along with evidence of widespread COVID-19 illness in communities across the country, CDC recommends that people wear a [cloth face covering](#) to cover their nose and mouth in the community setting. This

is an additional public health measure people should take to reduce the spread of COVID-19 in addition to (not instead of) social distancing, frequent hand cleaning and other everyday preventive actions. A cloth face covering is not intended to protect the wearer, but may prevent the spread of virus from the wearer to others. This would be especially important in the event that someone is infected but does not have symptoms. A cloth face covering should be worn whenever people must go into public settings (grocery stores, for example). Medical masks and N-95 respirators are reserved for healthcare workers and other first responders, as recommended by current CDC guidance.

- Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing.
 - If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty.

For information about handwashing, see [CDC's Handwashing](#) website

For information specific to healthcare, see [CDC's Hand Hygiene in Healthcare Settings](#)

These are everyday habits that can help prevent the spread of several viruses. CDC does have [specific guidance for travelers](#).

For more information, please visit the CDC website at <https://www.cdc.gov/coronavirus/2019-ncov/index.htm>

How to Protect Yourself & Others

Older adults and people who have severe underlying medical conditions like heart or lung disease or diabetes seem to be at higher risk for developing serious complications from COVID-19 illness. More information on [Are you at higher risk for serious illness](#).

Know how it spreads

- There is currently no vaccine to prevent coronavirus disease 2019 (COVID-19).
- **The best way to prevent illness is to avoid being exposed to this virus.**
- The virus is thought to [spread mainly from person-to-person](#).
 - Between people who are in close contact with one another (within about 6 feet).
 - Through respiratory droplets produced when an infected person coughs, sneezes or talks.
 - These droplets can land in the mouths or noses of people who are nearby or possibly be inhaled into the lungs.
 - Some recent studies have suggested that COVID-19 may be spread by people who are not showing symptoms.

Everyone Should

Wash your hands often

- [Wash your hands](#) often with soap and water for at least 20 seconds especially after you have been in a public place, or after blowing your nose, coughing, or sneezing.
- If soap and water are not readily available, **use a hand sanitizer that contains at least 60% alcohol**. Cover all surfaces of your hands and rub them together until they feel dry.
- **Avoid touching your eyes, nose, and mouth** with unwashed hands.

Avoid close contact

- **Avoid close contact with people who are sick, even inside your home.** If possible, maintain 6 feet between the person who is sick and other household members.
- **Put distance between yourself and other people outside of your home.**
 - Remember that some people without symptoms may be able to spread virus.
 - [Stay at least 6 feet \(about 2 arms' length\) from other people](#).

- Keeping distance from others is especially important for [people who are at higher risk of getting very sick](#).

Cover your mouth and nose with a cloth face cover when around others

- You could spread COVID-19 to others even if you do not feel sick.
- Everyone should wear a [cloth face cover](#) when they have to go out in public, for example to the grocery store or to pick up other necessities.
 - Cloth face coverings should not be placed on young children under age 2, anyone who has trouble breathing, or is unconscious, incapacitated or otherwise unable to remove the mask without assistance.
- The cloth face cover is meant to protect other people in case you are infected.
- Do NOT use a facemask meant for a healthcare worker.
- Continue to keep about 6 feet between yourself and others. The cloth face cover is not a substitute for social distancing.

Cover coughs and sneezes

- **Always cover your mouth and nose** with a tissue when you cough or sneeze or use the inside of your elbow and do not spit.
- **Throw used tissues** in the trash.
- Immediately **wash your hands** with soap and water for at least 20 seconds. If soap and water are not readily available, clean your hands with a hand sanitizer that contains at least 60% alcohol.

Clean and disinfect

- **Clean AND disinfect frequently touched surfaces daily.** This includes tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, toilets, faucets, and sinks.
- **If surfaces are dirty, clean them.** Use detergent or soap and water prior to disinfection.
- **Then, use a household disinfectant.** Most common [EPA-registered household disinfectant](#)[external icon](#) will work.

Monitor Your Health

- **Be alert for symptoms.** Watch for fever, cough, shortness of breath, or [other symptoms of COVID-19](#).
 - Especially important if you are [running essential errands](#), going into the office or workplace, and in settings where it may be difficult to keep a [physical distance of 6 feet](#).
- **Take your temperature** if symptoms develop.
 - Don't take your temperature within 30 minutes of exercising or after taking medications that could lower your temperature, like acetaminophen.
- Follow [CDC guidance](#) if symptoms develop.

How many MS4s contributed to this report?

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.

Sediment and floatable pollution POCs reduced by Catch Basin Head Cleaning, Roadside Debris Pickup & Bulk Leaf Pickup. DPW split staffing and rotated personnel for safety this year, kept residents & businesses carefully informed of scheduling changes via online & hard copy notices. Road salt application minimized by pre-appl before storms. Landscape contractors informed about mulch mowing (LELE) reduced organic runoff pollution. Composting at Greenburgh facility.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

There were 47 Catch Basin Head Cleanings (41 entire Village), 70 Roadside Debris Pickups (entire Village) & 70 Bulk Leaf Pickups (62 entire Village). Residents composted food scraps at G'burgh. A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

Maintenance is done indoors at the DPW facility on all municipal vehicles (Public Works, Police & Fire Departments), which prevents fluid leaks from entering runoff. Sweeper Vac vehicle is used extensively for both street sweeping and catch basin cleaning.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

119 vehicle maintenance tasks were performed this year. Absorbent is used to clean any and all spills and disposal is in spill waste receptacles. Vehicle wash water does not enter storm drains. Used oil and automotive fluid designated containers have secondary containment systems. Street sweeping continued until December owing to mild weather conditions.

MEMORANDUM

To : Meredith S. Robson
Village Manager

From : James J. Hahn, P.E.

Date : May 10, 2021

Subject : Proposed Ardsley Curbs 2021 – Part 1 and Part 2
Village of Ardsley, NY

On May 6, 2021, four (4) bids for the referenced project were received and publicly read aloud at Village Hall. As requested, we have reviewed the bids in accordance with the project specifications. The bid values were verified as shown on the attached bid spreadsheet.

Two separate bids are included with this document as Part 1 and Part 2 (attached is the project location map showing each part). The work for both parts, consists furnishing all labor, materials and equipment necessary to install approximately 27,000 linear feet of concrete curbs in the Village of Ardsley. The work also includes maintenance and protection of traffic, adjustment of catch basin frames, and restoration, all in accordance with the plans and specifications, as directed by the Engineer.

An alternate was submitted for each part for Concrete Curbs with GGBFS (low carbon concrete).

The Contractor's names, addresses, and base bid amounts are shown below. The summaries are separated by each alternative:

PART 1

	Total Part 1	Alternate 1	Total Part 1 plus Alternate 1
Con-Tech Construction Technology Inc.	\$903,700.00	\$15,000.00	\$918,700.00

PART 2

	Total Part 2	Alternate 1	Total Part 1 plus Alternate 1
Con-Tech Construction Technology Inc.	\$738,000.00	\$12,000.00	\$750,000.00
Gianfia Corp.	\$821,500.00	\$1,200.00	\$822,700.00
Paladino Concrete Creations Corp.	\$920,500.00	\$12,000.00	\$932,500.00
Morano Brothers Corp.	\$1,189,500.00	\$0.00	\$1,189,500.00

PARTS 1 and 2

	Combined Base Bid	Total Alternates	Combined Total plus Alternates
Con-Tech Construction Technology Inc.	\$1,641,700.00	\$27,000.00	\$1,668,700.00
Gianfia Corp.	\$1,791,600.00	\$4,950.00	\$1,796,550.00
Paladino Concrete Creations Corp.	\$2,056,000.00	\$27,000.00	\$2,083,000.00
Morano Brothers Corp.	\$2,653,200.00	\$0.00	\$2,653,200.00

Based on the bid totals shown above, Con-Tech Construction Technology has submitted the lowest base bid 1, base bid 2, base bid 1 with alternate and base bid 2 with alternate. Con-Tech Construction Technology has submitted a responsive bid with satisfactory work references and has been successful in completing similar projects of similar scope.

The Contractor has indicated they are ready to perform all work for Part 1 and Part 2, in accordance with the project specifications.

The low bidder alternate costs of low carbon concrete for both parts totaled \$27,000, increasing the cost of curbing by \$1.00 per linear foot of curb. Based on our research, the additional costs would typically be in the range of \$0.20 to \$1.00 per foot. Therefore, the cost for the low bidder is on the high side of the range typical for the change in material. As the decision for low carbon concrete is more budgetary, we leave that decision to the Board.

Based on the above, we recommend that the Village Board accept and approve Con-Tech Construction Technology as the low bidder for Parts 1 and 2 and have the project proceed pending the submission of bonds and insurances by the Contractor and the signing of contracts.
