Stormwater Annual Report presentation notice was announced at Village of Ardsley Board of Trustees meeting held April 17, 2023. Village Board Agenda for May 1, 2023 meeting emailed and posted on April 28, 2023.

<https://ardsleyvillage.civicweb.net>

SW Annual Report posted on Village Stormwater webpage and news announcement posted on SW homepage on April 24, 2023.

<https://ardsleyvillage.com/stormwater-project>

Presentation of the SW Annual Report at the May 1, 2023 Village Board meeting was in person at Village Hall, broadcast live on Cable Access TV and via Zoom.

<https://us02web.zoom.us/j/85183049987?pwd=bHNqRlR4N0ZmZWtleHVWUHprYTfkUT09>

It was recorded for re-broadcast on Cable Access TV, Optimum Channel 75 and Verizon Channels 32 and 35.

Eighteen people attended the meeting in person including Mayor Kaboolian, Trustees DiJusto, Edelstein, Weitz and Bencosme, Village Manager Cerretani, Village Attorney Ponzini, Village Clerk Rocco, CATV Director Malone, Former Mayor Leon and CAC Chair Kapsis. In addition, eleven people attended via Zoom.

Mayor Kaboolian commented that the Village should expand Food Scrap Collection efforts and asked if it was necessary to separate “Brown” and “Green” items for collection. Kuhn answered that separation of “Brown” and “Green” items depicted in the Presentation was done at the Westchester County Compost site in Valhalla for demonstration purposes, and was not required for bringing in scraps for collection. However, Kuhn stressed that scraps must not be contaminated with metals and plastics. Noting the recent heavy storm, Mayor Kaboolian hoped that the County could do more with controlling flooding at Macy Park. Kuhn responded that Macy Park must still act as a storage area during big storms and this spares the Village from flooding the downtown business district. Moreover, while still getting flooded, the new playground and field installations at Macy Park are now more resilient and function is recovered as soon as floodwaters recede. Trustee Bencosme had a question about Green Infrastructure and native plantings for use in flood control. Kuhn answered that the most recent heavy storm overwhelmed stormwater practices. However, Kuhn added that the Village does have directives in place for use of native non-invasive species, and that the Planning Board stipulates use of native non-invasive in reviews of all projects. Ardsley DPW adheres to use of native non-invasives, as aided by advice from Trustee Edelstein.

There were no changes to the Stormwater Management Plan required following the Village Board meeting.

☐ On behalf of a coalition

How many MS4s contributed to this report?

For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.**

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Frequent Catch Basin Head Cleaning, Roadside Debris Pickup and Bulk Leaf Pickup throughout the entire Village reduced sediment & floatable pollution POCs. Road salt pre-application before predicted storms minimizes salt use. Landscape contractors are informed on work sites about the benefits of mulch mowing (LELE) and the need to reduce organic runoff pollution. Residents are strongly encouraged to separate food waste from their garbage & bring it to the compost facility.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

There 19 Catch Basin Head Cleanings (entire Village), 61 Roadside Debris Pickups (entire Village) & 64 Bulk Leaf Pickups (entire Village).
Village residents brought food scraps to the Greenburgh Collection facility.
Eighteen landscape crews received LELE notices at work sites.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

All Village municipal vehicles (Public Works, Police & Fire Department) are serviced indoors at the DPW Garage, preventing motor fluid leaks from entering runoff. Sweeper Vac vehicle is used extensively for both street sweeping and catch basin cleanout. The new DPW, with expanded space, will allow compliance with runoff protection measures to be even more efficient.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

130 vehicle maintenance procedures were performed this year. Any and all spills are cleaned up using absorbent and disposal is in spill waste receptacles. Vehicle wash water does not enter the storm drain at any time. Used oil and automotive fluids are disposed of in upgraded secondary containment units. Street sweeping is ongoing year-round. Street sweeper schedule appears in all Village online communications which facilitates proper access to the streets.
